

TEM-4385 Extinguishing Terminator

TEM-4385 Terminator module is a module that allows TEP-4300 Extinguishing Panel to output to more than one solenoid. The extinguishing output is capable of providing up to 3A continuously. Pay attention to the wiring and values specified in the figures for one solenoid and two solenoid usage. Make sure to select the appropriate terminator quantity for your wiring from the panel's extinguishing options menu.

Technical Specifications

| TEM-4385 | |
|----------------------|--|
| Alarm LED | Blinks red when panel extinguishing output is active |
| Dimensions | 100mm x 66mm x 33.5mm (w x d x h) |
| Weight | 64g |
| Housing Material | White, ABS Plastic |
| Installation Package | 2 pieces of 6mm dowel, 2 pieces of 3.5*32 YSB screw |
